

THE SCOPE OF WORK FOR CATEGORIES OF REGISTRATION OF THE PROJECT AND CONSTRUCTION MANAGEMENT PROFESSIONS

PREAMBLE

1. Background

The Council for the Built Environment (the CBE) is a statutory body established in terms of the Council for the Built Environment Act, 43 of 2000 (the CBE Act). The CBE is an entity of the Department of Public Works and Infrastructure (DPWI). The CBE is an overarching body, regulating the activities of the six councils for the following built environment professions (the CBEP): engineering, architecture, landscape architecture, quantity surveying, property valuation and project and construction management.

The CBE Act impels the CBE to, after consultation with the Competition Commission (CC) and in consultation with the Councils for the Built Environment Professions (CBEP), identify the scope of work for each category of registration (section 21 of the CBE Act). The consultation with the CC was conducted. The CBE is keen to continuously engage the CC on the process of regulating the built environment professions. The CBE will also seek collaboration with the CC on the development and communication of an advocacy position on the regulation on the built environment professions.

2. Ambit of scope of work and the regulation of the built environment professions

In the context of this process, scope means “*the range of work performed by a registered person in terms of a specific piece of legislation other than the legislation that created the councils for the professions, or the statutory duties which may be performed by a registered person.*”

The CBEP have *inter alia* the statutory mandate to accredit learning programs at educational institutions, register applicants in appropriate categories of registration, exercise oversight over the professional conduct of registered persons and express the intention to have the

CBEP regulate their respective professions. The identified scope of work for each category of registration is seen as a component of a framework for such regulation.

The CBE acknowledges the mandate of the CC to ensure full and free participation in the economy, as embodied in the preamble of the Competition Act, 89 of 1998. The need for an efficient, competitive economic environment, balancing the interests of workers, owners and consumers and focussed on development to benefit all South Africans is also recognised.

The regulation of professions should therefore not:

- (i) limit the range of suppliers available
- (ii) limit the ability of suppliers to compete
- (iii) reduce the incentive for suppliers to compete
- (iv) limit the choices and information available to customers

Factors (i) to (iv) above should be pro-actively addressed through information and advocacy processes.

The following scope of work is published for information.

3. SCOPE OF WORK PER PROFESSIONAL CATEGORY

3.1 Professional Construction Manager

Definition:	A Professional Construction Manager is a person who is registered as such in terms of the Project and Construction Management Profession Act, 2000 (Act No. 48 of 2000, as amended).
Level Descriptor	<p>A Professional Construction Manager is a manager of the physical construction process within the Built Environment which include the following during the six stages of services:</p> <ul style="list-style-type: none">a) co-ordination;b) administration; andc) Management of resources.

3.2 Professional Construction Project Manager

Definition:	A Professional Construction Project Manager is a person who is registered as such in terms of the Project and Construction Management Profession Act, 2000 (Act No. 48 of 2000, as amended).
Level descriptor	A Professional Construction Project Manager is a manager of projects within the Built Environment from conception to completion, including the management of related professional services following the six stages of services.

4 SCOPE OF WORK PER SPECIFIED CATEGORY

4.1 Professional Construction Health and Safety Agent

Definition	A Professional Construction Health and Safety Manager is a person who is registered as such in terms of the Project and Construction Management Profession Act, 2000 (Act No. 48 of 2000, as amended).
Level Descriptor	A Professional Construction Health and Safety Agent is any competent person who acts as a representative for a client in managing health and safety on a construction project for the client and who has satisfied the registration criteria of the SACPCMP to perform the required functions

4.2 Construction Health and Safety Manager

Definition	A Construction Health and Safety Manager is a person who is registered as such in terms of the Project and Construction Management Profession Act, 2000 (Act No. 48 of 2000, as amended).
------------	---

Level Descriptor	A Construction Health and Safety Manager is a competent person who is appointed by an employer to manage the planning and implementation of construction health and safety systems and who has satisfied the registration criteria of the SACPCMP to perform the prescribed functions.
------------------	--

4.3 Construction Health and Safety Officer

Definition	A Construction Health and Safety Officer is a person who is registered as such in terms of the Project and Construction Management Profession Act, 2000 (Act No. 48 of 2000, as amended).
Level Descriptor	A Construction Health and Safety Officer is a person who is appointed by an employer to assist site management with the planning, implementation and management of construction health and safety systems and who has satisfied the registration criteria of the SACPCMP to perform the prescribed functions.

4.4 Construction Mentor

Definition:	A Professional Construction Mentor is a person who is registered as such in terms of the Project and Construction Management Profession Act, 2000 (Act No. 48 of 2000, as amended).
Level Descriptor	A Professional Construction Mentor is a person who do the evaluation and assessment of a Contractor's skills, identification of the Contractor's shortcomings and the provision of suitable relevant professional advice to the Contractor to address these shortcomings and thereby to achieve their potential.

5 STAGE OF SERVICES

Definition: Stages of Services are the deliverables to be performed during a built environment project

5.1 Scope of services performed by the Project and Construction Management Professionals

Stages of Project Work	Professional Construction Manager	Professional Construction Project Manager	Professional Construction Health and Safety Agent	Construction Health and Safety Manager	Construction Health and Safety Officer	Construction Mentor
1. Project Initiation and Briefing	N/A	1.1 Facilitate development of a clear project brief. 1.2 Establish the procurement policy for the project. 1.3 Assist the client in the procurement of necessary and appropriate other consultants including the clear definition of their roles and responsibilities. 1.4 Establish in conjunction with the client, other consultants and all relevant authorities, the site characteristics, rights and constraints for the proper design of the intended project. 1.5 Define the consultant's scope of work and services. 1.6 Conclude the terms of the agreement with the client. 1.7 Facilitate a schedule of the required consents and approvals.	1.1 Demonstrate the Construction Health and Safety Agent competency and resource. 1.2 Assist in developing a clear construction project health and safety brief. 1.3 Attend the construction project initiation meetings. 1.4 Conclude the terms of the agreement with the client. 1.5 Advise on the necessary surveys, analyses, tests and site or other investigations where such information will be required for the next stage of the project. 1.6 Advise the client on the adequacy of health and safety competency and resources of the other consultants. 1.7 Identify construction project health and safety risk profile.
